Horticulturists agree that Fall planting is best for perennials, rock plants, peonies and iris.

Daffodil, tulip and crocus bulbs should be planted from now on.

Echo Dale grows many varieties of these in the fields.

A cordial invitation is extended to you to visit their Dahlia, Gladioli and Rock Gardens this Fall.

Let us know your wants and we will try to please you.

Indian Rustics for indoors and outdoors, (a renewal of a lost art) now harmonizing with rock garden effects, is the newest novelty introduction of Echo Dale Gardens.

It has been their good fortune to come across the one man who knows how to build these rustics.
